

SAP EWM TRAINING (L1) – CONTENT

1. SAP-Introduction

2. SAP-EWM terminology.

3. Deployment Options for EWM in SAP S/4 HANA

4. Organizational Structures

- ⌚ Client
- ⌚ Company
- ⌚ Company Code
- ⌚ Plant
- ⌚ Storage Location
- ⌚ Purchase organization.
- ⌚ Sales organization
- ⌚ Distribution channel
- ⌚ Division

5. Warehouse Structures

- ⌚ Warehouse number
- ⌚ Storage type
- ⌚ Storage Section
- ⌚ Storage Bins
- ⌚ Staging Area and Warehouse Door
- ⌚ Activity Area
- ⌚ Work Center

6. Master Data

- ⌚ Supply Chain Unit
- ⌚ PED
- ⌚ Custodian
- ⌚ Owner
- ⌚ Business Partners
- ⌚ Material master
- ⌚ Product Master
- ⌚ Packaging Materials

7. RFC Connections

8. Distribution Model

9. EWM specific settings

10. S4 & EWM integration settings.

11. Storage type control parameters

12. Warehouse Process type

13. Resource Management

14. Queue Management

15. Put away Strategies

- ⌚ Fixed bin Strategy
- ⌚ Bulk Storage
- ⌚ Pallet Storage

SAP EWM TRAINING (L1) – CONTENT

16. Cross Process Settings

- ⌚ Warehouse Request
- ⌚ Warehouse Tasks
- ⌚ Warehouse Order

17. Inbound Processing - Simple Inbound

- ⌚ Configuring Inbound
- ⌚ Delivery Processing
- ⌚ Inbound Delivery
- ⌚ Unloading and Goods Receipt
- ⌚ Put away

18. RF Inbound Scenarios

19. Storage control-POSC

- ⌚ Deconsolidation
- ⌚ VAS

20. Outbound Processing

- ⌚ Configuring Outbound
- ⌚ Delivery Processing
- ⌚ Stock Removal
- ⌚ Picking and Packing
- ⌚ Loading
- ⌚ Post Goods Issue

21. Goods Reversal

22. Picking scenarios

23. Process code

24. Physical Inventory

- ⌚ Physical Inventory Processes
- ⌚ Configuring Physical Inventory
- ⌚ Physical Inventory Documents

25. Replenishment

26. Slotting

27. Ad-Hoc Warehouse Movement

28. Posting Change

29. Stock Transfer

30. Put away Strategies

31. Warehouse Monitoring and Reporting

- ⌚ Warehouse Monitor Features

32. Wave Management

- ⌚ Configuring Wave Management
- ⌚ Wave Creation Process
- ⌚ Two Step Picking

33. Shipping and Receiving

- ⌚ Configuring Shipping and Receiving
- ⌚ Yard Management.
